

# Intel Santa Clara Annual Retirement Dinner

November 17, 2016

Sharing, Caring, Connecting

Michael's at Shoreline in Mt. View was again the setting for the 8<sup>th</sup> Annual Bay Area IRO dinner. Attendance continues to grow with 90 attending the annual dinner. We had a good mix of the recently retired along with some that have been retired for 10+ years. Following a social hour, we welcomed our guests with a review of the evening's agenda. Guests were treated to a delicious dinner buffet that included beef and chicken entrees.

Our guest speaker was Josh Walden who is senior vice president and general manager of the New Technology Group. Josh oversees Intel's global research efforts in computing and communications and shared news on The Airborne Revolution including Intel's drone technology. Many retirees recognized Josh from their early careers in the 1980's at Santa Clara's Fab 2.

Following Josh's presentation a raffle was held for prizes. Guests indicated which prizes they would like to win by putting their tickets into bowls next to each of the 10 prizes. Numbers were called for prizes that included a Fitbit, Fire Tablet, gift cards, and wine.

The evening ended with an optional discussion on benefits for anyone with questions regarding retiree health, SERP, and SERMA. Many stayed to chat with Josh about the 'good old days' at Fab 2. All in all, a fun evening!

Thanks to Intel for subsidizing our dinner, to our volunteers and speaker who made it a success and to Michael's at Shoreline. Be sure to check out the photos on the next page to see all who attended and hope to see you next year.

*See you in 2017!*
