

Intel Bay Area Annual Retirement Dinner

November 14, 2018

Michael's at Shoreline in Mt. View was again the setting for the 10th Annual Bay Area IRO dinner. This year we celebrated Intel's 50th anniversary as well. We had a great group of retirees and guests – with recent retirees, to retirees of 15 years or more. Following our social hour, we welcomed our guests with a review of the evening's agenda. Retirees and their guests were treated to a delicious buffet dinner that included Sirloin Tips and Chicken Marsala.

Our guest speaker was Jackie Sturm who is the Corporate VP and General Manager of Intel's Global Supply Management Group. This was repeat performance for Jackie who had been our previous guest speaker several years before and really had impressed our audience. She also had recently returned from sabbatical. We felt very fortunate to have her join us again. She provided a wealth of interesting topics and timely Intel updates and engaged with the audience answering many questions.

Following Jackie's presentation, a raffle was held for prizes. We had eight prizes, including two echoes, gift cards and wine. With the 50th anniversary addition to the evening we were fortunate to be able to give all our retirees and guests 50th Anniversary t-shirts, which were very popular.

The evening ended with a couple of group shots and more socializing. It was a great evening and fun was had by all.

Thanks to Intel for subsidizing our dinner, providing the 50th Anniversary t-shirts, and to our volunteers and guest speaker who made it a success and to Michael's at Shoreline. Be sure to check out the photos below to see who attended, and if you missed it, we hope you are able to attend next year.
