ASK IRO Mailbox

I attended the [IRO Navigating SERMA Webinar](#) on 5/21/21 and would like to review a portion of the Webinar, but don't want to listen to the full hour again. Is there a way to access a specific part of the Webinar?

Yes, the Webinar is posted at [IRO Navigating SERMA Webinar](#) 05/21/21 and has been indexed. When you arrive at the site, you will see the introduction that says "This presentation covers IRO and Intel resources to assist with understanding and using the SERMA benefit. The video is one hour in length." Following those two sentences, you'll see text that says, "Show More." When you click on that, it displays the **Topic Index**. You may select any of the ten linked times and advance directly to the topic that you want to view. Of course, for those of you that missed the Navigating SERMA Webinar, you can still play the entire video.
