DONATION MATCHING PROGRAM RESTRUCTURING UPDATE

The Intel Foundation met with IRO to provide an update on the significant restructuring [changes](#) to their Donation Matching program. They have listened to our feedback and continue to seek further feedback on using the restructured program. In addition, they are monitoring how these changes are affecting program donations and could use this input as they consider future changes. While this input is being collected and reviewed, we don't anticipate further changes to the program this year. Quarterly meetings with IRO have already been scheduled to review their [Donation](#) and [Volunteer](#) matching programs.

EXPECTED INTEL INVOLVED VOLUNTEER MATCHING PROGRAM PAYOUT

Payout checks for reported 2022 volunteer hours are anticipated in April/May this year. After checks are mailed, a payout report will be issued by Intel, announced, and updated on the IRO website. A reminder that no commitment of funds on behalf of Intel or the Intel Foundation should be made to any cause until the payout report has been published and made public.
